

Dadar Railway Station Teacher Chatbot RAG Question Bank

Maximum Expanded English Question + Answer Dataset

Original routes: 754

Unique expanded questions: 10767

Total Q&A; records: 11521

This version is designed so a teacher/user can ask the same navigation request in many different English forms. Every route variant points back to the corresponding source-supported route answer.

Coverage includes: where questions, how-to questions, distance questions, route questions, step-by-step questions, turn/direction questions, landmark questions, starting-location questions, passenger/visitor phrasing, and general chatbot questions.

Source limitation: external address, live train timings, live crowd status, and live GPS are not present in the supplied route corpus and are explicitly not fabricated here.

Section 1 — General Teacher / Chatbot Questions

general_001

Question: Where is Dadar Railway Station?

Answer: This dataset is for navigation inside Dadar Railway Station. It does not contain the station's external street address or coordinates.

general_002

Question: What facilities are covered by this station navigation dataset?

Answer: The dataset covers the locations and routes represented in its route records, including platforms, foot over bridges, booking offices, ATM, toilets, Exit Gate, and Help Clinic.

general_003

Question: Where is the ATM inside the station?

Answer: The dataset contains routes to the ATM from multiple supported starting locations.

general_004

Question: Where is the Exit Gate inside the station?

Answer: The dataset contains routes to the Exit Gate from multiple supported starting locations.

general_005

Answer: The dataset includes Foot Over Bridge 1, 2, 3 - North, 4 - South, 5, 6, 7, and 8.

general_010

Question: Can I ask for directions between two station locations?

Answer: Yes. The route records support questions that specify a starting location and a destination covered by the dataset.

general_011

Question: Can I ask how far one station location is from another?

Answer: Yes. Many route records include an approximate total distance in meters.

general_012

Question: Can I ask for left and right turn instructions?

Answer: Yes. The route answers preserve the turn instructions contained in the source route records.

general_013

Question: Can I ask for the landmarks on the way?

Answer: Yes. Route answers list intermediate landmarks when they are present in the source route.

general_014

Question: Can I ask for step-by-step directions?

Answer: Yes. The route records provide sequential walking instructions between supported locations.

general_015

Question: Can the chatbot answer questions about live train timings?

Answer: Not from this dataset. The supplied corpus contains station-navigation routes, not live train timetable data.

general_016

Question: Can the chatbot answer live crowd questions?

Answer: Not from this dataset. Live crowd information is not contained in the supplied route corpus.

general_017

Question: Can the chatbot provide my live GPS location?

Answer: Not from this dataset. The route corpus contains predefined station locations and routes rather than a user's live GPS position.
