

Expanded Station Navigation RAG Corpus - v2 (auto-generated additions)
Generated from verified single-hop segments of the original 121-route corpus.
Covers full pairwise shortest-path routes among the core station locations,
with 10 question phrasings per route.
Limitation: does not include newly-listed facilities (Stairs, Ramps, Ticket
Counters, Water, Food, Medical Room, Taxi Stand, Concourse, Waiting Area,
Western/Central numbered platforms) because their exact walking directions
are not verifiable from the station map image alone.
